Happy children make a better world

1.

A room is fully completed when everyone feels welcome.

2.

Children as well!

3.

That is why IKC offers play value worldwide, in any area, for every budget and according to any wishes.

4.

Playing children always have a positive effect on the visitor's experience.

Suitable play corners for all types of leisure

PLAYING PROVIDES A POSITIVE DISTRACTION

Every leisure facility is different, but a kids' corner always has a positive effect on the experience of your visitors. It allows parents to enjoy an extra cup of coffee in the cafeteria of the swimming pool or to browse and shop at ease in the souvenir store. It can also add play value in places where your guests have to wait.

THE ADVANTAGES OF A KIDS' CORNER IN YOUR LEISURE ESTABLISHMENT

By giving everybody a place in your organisation, all guests will enjoy themselves and feel welcome. This creates a family friendly atmosphere for at your sports facility, museum, cinema, or amusement park. This pleasant environment will lead to more returning visitors, better brand awareness and a higher turnover.

FOREX WALL DECORATION

Our wall decorations are made of Forex (light, strong PVC foam), and are printed with quality photos and prints. Easy to maintain, and smooth on any wall. The non-reflective material ensures a beautiful result, regardless of the light in the room.

VINYL FLOOR

Our durable vinyl floors are flexible, light and solid at the same time. They are made of a very strong material on which any design can be printed. The floors are produced in a unique way to guarantee optimal quality, colour durability and wear-resistance. The image is printed in reverse on the bottom side. The entire thickness of the floor forms the UV-resistant wear layer.

EPDM PLAYFLOOR

The EPDM play floors are of high quality and offer children a safe surface to play on. The flooring is slip resistant and ensures that the impact of a fall is absorbed. According to the European safety standard, a shock-absorbent floor is mandatory if children can climb higher than 60 cm in your play corner.

PLAYWHEEL TIP OF THE ICEBERG

Tip of the iceberg is a rotating game which challenges children to move a ball through a maze by rotating the play wheel, requiring good hand eye coordination. On route, players must avoid the holes in the ice in order to reach the flag! This round game has a unique, modern frame made of birch plywood with a white painted front which compliments many environments.

PLAYMODULE CRAZY MIRROR

Crazy mirror is a variant of the classic laughing mirror, in which the mirror image of the children is twisted and bent into intriguing reflections. The play panel can be attached to the wall or to an IKC play system, which means that the game does not take up a lot of space

DELTA 17 WALL

The Delta 17 inch white interactive play system is available with a white and blue housing suitable to mount on the wall, on a play fence or on a play system. This popular play system can already be found in thousands of establishments all over the world.

“By offering a play solution for the children, it will be easier for parents to go to the gym.”

Why together with IKC?

THE POWER OF PLAY BY IKC

Our goal is to turn every organisation into a child friendly environment. By combining our knowledge and love for the way children play, we create powerful products that transform any room into a child friendly place.

The goal of our creative and challenging kids play areas is to enable children to feel comfortable and enjoy themselves endlessly.

SAFE, FAIR AND SUSTAINABLE IS OUR MIDDLE NAME

This is important, especially when it comes to children playing. We have mapped our footprint and are working to reduce it as much as possible. That is why we use materials that are safe, durable and don't cause any damage to the environment. This will not just benefit the playing children now, but also in the future.

FROM DESIGN TO INSTALLATION

We control the entire supply chain, from design to installation. With headquarters in the Netherlands and Shanghai China and a factory in Jiaxing China, we serve customers all over the world.

Our full-service philosophy:

- extensive advice
- choice from our collections
- a custom design
- complete installation, maintenance and broad warranty

A PLAY CONCEPT IN A STRATEGIC PLACE

The ideal positive effect of a play corner can be achieved by choosing a strategic location. At the restaurant you give visitors the opportunity to eat in a more relaxed and extensive manner. But with a play corner at the ticket desk, children will not get bored in the queue. Happy children result in happy parents.

SUSTAINABILITY AND SAFETY STARTS WITH THE MATERIALS

Only the best kind of wood, paint that leaves no chemical traces, a minimum amount of plastic and as much recycling as possible.

Our sustainable play concepts:

- contain the best types of FSC certified wood
- comply with the EN-71 safety standard
- are sprayed with antibacterial and scratch resistant paint
- are easy to clean and to maintain
- don't contain any loose parts

DO YOU WANT A CHILD FRIENDLY ENVIRONMENT?

Whether you have a lot or little space, a large or small budget: creating play value is always an option. We have been providing play value for leisure establishments all over the world for many years.
